

GALDERMA

THIS IS MY LOOK

Small tweaks. Dramatic changes.

Or even nothing at all. How you define your look is up to you. Restylane has the world's most diverse range of individually engineered fillers and skinboosters,^{*1-10} which means if you do decide to make a change, then you can - on your own terms.^{11,12}

Restylane®
by GALDERMA

* Based on a range of G' values^{9,10}

HOW CAN RESTYLANE HELP ME ACHIEVE MY LOOK?

THE AGING PROCESS

- As we age, our skin loses fat, collagen, and other important elements that provide facial volume and support
- We also start to see the formation of lines, wrinkles, and folds that can contribute to us looking older

DEFINE YOUR OWN LOOK

- It's not only about smoothing the lines, wrinkles, and folds that come with age. Restylane products can also be used to help you achieve your personalized signature look by creating lift, structure, and volume

THE IMPORTANCE OF HYALURONIC ACID (HA)

- HA is a molecule that is found in the body and plays an important role in hydrating our skin and providing fullness and elasticity
- However, our natural levels of HA decline as we age which can cause skin to lose volume and increase the chances of wrinkles and skin folds

RESTYLANE PRODUCTS CONTAIN A CLEAR GEL FORMULATION OF HA THAT IS **SPECIFICALLY DESIGNED TO ACT LIKE YOUR BODY'S OWN NATURALLY PRODUCED HYALURONIC ACID TO GIVE YOU THE MOST INDIVIDUALIZED AND NATURAL-LOOKING RESULTS.**¹⁻⁶

WHY SHOULD I CHOOSE RESTYLANE?

HIGH PERFORMANCE THAT LASTS

Fillers from the Restylane range achieve results that **last up to 24 months**, depending on the product used and area treated^{*7,8}

THE CLOSEST TO NATURAL HA

Closest to your skin's own HA for **individualized and natural-looking results**²⁻⁵

A TRUSTED PRODUCT

Restylane pioneered the original HA filler over **26 years ago** and has been used in **more than 55 million treatments worldwide**, in a diverse range of skin colors, tones, and types^{**†9-12}

ENHANCES YOUR NATURAL EXPRESSION

Restylane products work to enhance your face's natural movement for **youthful-looking results**¹³

A HIGH LEVEL OF TREATMENT SATISFACTION

99% of patients would recommend a Restylane treatment to a friend¹⁴

 MENTAL CREASE
 CHIN

Treatment lasts
up to 12 months^{*1,11}

PATIENT SATISFACTION: 97%

of patients **were satisfied** with their treatment, 1 month after treatment^{**12}

FLEXIBLE REFINEMENT

Give your face flexible refinement with **Restylane Refyne** – used to fill lines and wrinkles^{2,7-10}

PERIORAL LINES
 NASOLABIAL FOLDS
 MARIONETTE LINES

Treatment lasts
up to 12 months^{*1,11}

95%

of patients **would recommend** the treatment to a friend, 1 month after treatment^{**13}

* Touch-up was allowed at 2 weeks after initial treatment.¹²

** Pooled results for both Restylane Refyne and Restylane Defyne. As assessed by subject and investigator satisfaction questionnaires.^{12,13}

HA, hyaluronic acid.

WHAT DOES CHIN RETRUSION LOOK LIKE?

No retrusion Mild retrusion Moderate retrusion Substantial retrusion

RESTYLANE DEFYNE OFFERS AN IDEAL BALANCE OF **FIRMNESS AND FLEXIBILITY**, TO CONTOUR AND **DEFINE THE CHIN**, AND GIVE YOU:^{*4,6-8}

- FLEXIBLE FACIAL MOVEMENT
- NATURAL EXPRESSIONS

PATIENT SATISFACTION:

99%

of patients said the **appearance of their chin had improved** after treatment with Restylane Defyne^{**14}

DURATION

* HA-based filler products have been tested for firmness (G') and flexibility (xStrain) using rheometry. G' value reflects the gel firmness (support) of a product. xStrain is an index of gel flexibility (how much strain a gel can withstand and still be reversible).⁷

** As assessed by patients and treating investigators on the 7-point GAIS (patients who were scored as "improved" "much improved" or "very much improved") after 12 weeks, (N=107).¹⁴

GAIS, Global Aesthetic Improvement Scale; HA, hyaluronic acid.

RESTYLANE® VERSATILE SUPPORT

FOR ANY AND EVERY LOOK

WITH DIFFERENT TECHNOLOGIES SUITED FOR EACH TREATMENT AREA, YOU CAN CREATE A LOOK TAILORED TO EACH PATIENT.

A **VERSATILE OPTION** THAT CAN BE USED TO **ACHIEVE THE LOOK YOU WANT**¹⁻⁴

The **original hyaluronic acid filler** with more than two decades of real-world experience^{*5,6}

Durable results that last for **up to 36 months**^{**7}

Ideal to reduce the appearance of **nasolabial folds, marionette lines, and infraorbital hollows**¹

INFRAORBITAL HOLLOWS

NASOLABIAL FOLDS & MARIONETTE LINES

PATIENT SATISFACTION:

100%

of patients **reported improvements** at 14 days after treatment^{†8}

>96%

of patients felt that they **would do the treatment again**^{†9}

* Restylane injectable gel was first approved for marketing and sale in September 1996 in the EU.⁵

** With one retreatment.⁷

† As evaluated by subject-rated improvement in the GAIS (ratings: "very much improved", "much improved", "improved" vs "no change", "worse"). (N=60).⁸

‡ As measured by subject satisfaction questionnaires regarding treatment conducted at timepoints throughout the study. (N=100).⁹

YOUR RESTYLANE QUESTIONS ANSWERED

WHICH TREATMENT IS RIGHT FOR ME?

Each Restylane product is designed to achieve something different. This means you can work with your Aesthetic Practitioner to achieve a bespoke look tailored to your needs.

HOW LONG DO THE EFFECTS OF A RESTYLANE TREATMENT LAST?

The effects of Restylane are long-lasting but not permanent. Restylane is biodegradable so it will gradually disappear from the body over time.¹ **Restylane treatments can last up to 24 months***, but this period may vary, depending on the individual, the amount used, and the area being treated. After your initial treatment, follow up sessions are usually recommended to maintain results.^{1,2}

* At 24 months 93% of patients (N=100) had self-evaluated improvements and 82% had physician-assessed improvements following one retreatment.⁴

SHOULD I AVOID ANYTHING AFTER TREATMENT?

It's best to avoid exposing the treated area to extreme heat (e.g. sunbathing, saunas, or steam baths) until any signs of inflammation have disappeared.³

ARE THERE ANY TREATMENT SIDE EFFECTS?

The most common post-treatment reactions are skin redness, swelling, itching, bruising, or pain and tenderness at the treatment site.^{1,2} These reactions usually disappear shortly after each injection, within 2 weeks.^{1,2} If these become troublesome or persistent, or if you are concerned about any side effect, contact your Aesthetic Practitioner.
